

src/RcppResultSet.h

```
graph BT; src_exceptions_cpp[src/exceptions.cpp] --> src_Rcpp_h[src/Rcpp.h]; src_Rcpp_common_cpp[src/RcppCommon.cpp] --> src_Rcpp_h; src_Rcpp_example_cpp[src/RcppExample.cpp] --> src_Rcpp_h; src_Rcpp_h --> src_Rcpp_result_set_h[src/RcppResultSet.h]; src_Rcpp_result_set_cpp[src/RcppResultSet.cpp] --> src_Rcpp_result_set_h;
```

A dependency diagram showing the relationships between source files. At the top is a grey box labeled 'src/RcppResultSet.h'. Below it are three white boxes: 'src/Rcpp.h' on the left, 'src/RcppResultSet.cpp' on the right, and 'src/exceptions.cpp' at the bottom left. Below 'src/Rcpp.h' are two more white boxes: 'src/RcppCommon.cpp' in the middle and 'src/RcppExample.cpp' on the right. Blue arrows point from 'src/exceptions.cpp' and 'src/RcppCommon.cpp' to 'src/Rcpp.h'. Blue arrows point from 'src/Rcpp.h' and 'src/RcppResultSet.cpp' to 'src/RcppResultSet.h'. Blue arrows point from 'src/RcppExample.cpp' to 'src/Rcpp.h'.
