

Abstract Robust estimator. Cannot be instantiated, used only for polymorphic treatment of the other concrete robust estimates

AMethod

attr1 : vector
attr2 : matrix

show() : void
plot() : void
summary() : Summary
predict() : Predict

Abstract base class for a statistical method - i.e. for classical as well as different robust estimates. The accessor methods are not shown. Each of the derived classes can reimplement the generic functions show() plot(), summary() and predict()

ARobustMethod

r_attr1 : numeric
r_attr2 : numeric

AClassicMethod

AClassicMethod() : AClassicMethod

ARobMethod1

ARobMethod1() : ARobMethod1

ARobMethod2

ARobMethod1() : ARobMethod2

Concrete Robust estimators
